

Card Scanning Solutions Announces Scan2CRM for ACT! for the new ACT! by Sage 2012 Contact and Customer Management Solution

CSSN is one of the leading image processing and OCR Software companies in the world. CSSN began its journey as the only company in the world that has been able to develop a system that can read all 50 states & 25 countries drivers license/ID's based on OCR and image processing technology.

Culver City, CA ([PRWEB](#)) September 29, 2011 -- Card Scanning Solutions recently announced the Scan2CRM for ACT! Add-On for the new ACT! by Sage 2012 [contact and customer management](#) solution from Sage North America. By scanning a business card, Scan2CRM for ACT! automatically inputs both the textual data and image into a new contact record in the ACT! application.

"Organizations in today's economy thrive on efficiency tools, such as comprehensive CRM systems" Yossi Zekri, President and CEO of Card Scanning Solutions. "Manual data entry is a cumbersome, error ridden process and can be costly. Automation resolves these issues with speed, accuracy, and greater efficiency."

[Scan2CRM for ACT!](#) works within seconds of placing a business card into the scanner. The system automatically opens and populates the text fields of a new contact record such as the name, phone number, and email address. Scan2CRM for ACT! is integrated within ACT! which means business cards do not need to be scanned into a 3rd party application before the information can be imported into ACT! For a limited time from now until October 31, 2011. We are offering a 5% discount for all new purchases of Scan2CRM for ACT! Just contact 213/867-2625 and mention the promotional code S2CRM2012.

About Sage ACT!

Sage ACT! is the #1 Contact and Customer Management choice of small businesses and sales teams designed to build the long-lasting, profitable relationships businesses thrive on. With Sage ACT! it's easy to manage anything and everything related to contacts and schedules. Think of it like a business command center that serves up relevant relationship details and also connects to powerful, subscription-based sales and marketing services, desktop and web-based productivity tools, and social media. Unlike other solutions that claim to get results, accomplish more, faster, by simply choosing to use Sage ACT!.

About Card Scanning Solutions

Card Scanning Solutions develops premier [image processing technologies](#). Their solutions process data from Driver Licenses, ID's, Business Cards, Passports, Checks, and Medical cards. Using a cutting-edge Optical Character Recognition (OCR) engine, the software reads actual text. Logic is incorporated into the OCR providing a more intelligent reading mechanism. In addition to the software is a full line of hardware scanning devices such as ScanShell® and SnapShell®. For more information check out our website at <http://www.card-reader.com> or call us at 213/867-2625.

ACT! is a registered trademark of Sage Software, Inc.

ScanShell® and SnapShell® are registered trademarks of CSSN Inc., d.b.a. Card Scanning Solutions.

Card Scanning Solutions is one of the leading image processing and OCR Software companies in the world. CSSN began its journey as the only company in the world that has been able to develop a system that can read all 50 states and 25 countries (and counting) drivers license/ID's based on OCR and image processing technology.
