

Card Scanning Solutions Enhances Partnership with Citrix®, Announces Added Support for Citrix® OCR

CSSN Inc. dba Card Scanning Solutions recently announced their partnership with Citrix® and the certification of their ScanShell® scanner series by Citrix® as Citrix Ready®. This means that customers with Citrix® deployments can purchase CSSN scanners with confidence. CSSN has now enhanced their partnership with Citrix® by announcing that their OCR SDK has started supporting the Citrix® environment. Both existing and new customers in the health care and financial industries, who are running their applications in the Citrix® environment, now have access to both state-of-the-art hardware and software from CSSN.

Los Angeles, CA ([PRWEB](#)) February 13, 2012 -- Card Scanning Solutions has been a leading software company specializing in image processing and OCR (Optical Character Recognition) since 1999. Recently, CSSN announced their partnership with Citrix® who specialize in providing server and desktop virtualization, networking, software-as-a-service (SaaS), and cloud computing technologies, including Xen open source products. With Citrix® certifying the scanners in the ScanShell® series from CSSN as Citrix Ready®, customers with Citrix® deployments can now buy CSSN's scanners confidently. A large number of customers in the health care and financial industries, who run their applications in the Citrix environment or who are only prepared to purchase Citrix® products and applications, are able to purchase a ScanShell® scanner knowing that the technology will work in the Citrix® environment.

CSSN's ScanShell® hardware offers a multipurpose card scanning system for a wide variety of media including, business cards, checks, medical cards, ID cards, driver licenses and passports through a range of high quality image processing scanners. The wide range of ScanShell® [id scanners](#) and their unique features also provides Citrix® customers with a choice of hardware based on one's specific requirements. Each scanner in the ScanShell® series brings a unique combination of high-speed, quality scanning, extensive functionality with no external power consumption. The ScanShell® devices are available in simplex or duplex capabilities and the innovative geometric design of the scanners features a small footprint making it the ideal scanning solution.

CSSN has now enhanced their partnership with Citrix® and have announced the added support for Citrix® OCR. This latest product forms part of CSSN's OCR Software Developers Kit (SDK) which resides on the Citrix server®. In order to allow maximum usability of their card scanning technology, CSSN's easy to use SDK consists of a set of integrable files that communicates quickly and seamlessly with Citrix® applications. The OCR SDK provides maximum flexibility as it has both scanning and OCR capabilities which are compatible with the ScanShell® hardware series. The scanner drivers are installed on the local machine and both the scanning and the processing are done in the application which is hosted on the Citrix® server. CSSN's added support now ensures that both CSSN's hardware and their SDK work with the applications installed on the Citrix® server.

Whether you are looking for an [id scanner](#) or a [driver license scanner](#), CSSN is now compatible with Citrix® for scanning and OCR with CSSN's ScanShell® hardware series making it the perfect solution to your scanning requirements. With the Citrix® stamp of approval, customers can purchase a ScanShell® scanner from CSSN with the confidence that the technology will work in a Citrix® environment with the added benefit of the support CSSN's innovative OCR SDK.
